C# / Full Stack Developer

£18,000 Starting Salary

www.greenlordstudios.co.uk

Greenlord Studios, based in Boho 5 in Middlesbrough, is a software engineering company, specialising in building enterprise level software solutions. We create web and mobile software for clients in a wide variety of sectors.

There is currently an opportunity within the company for a new developer. In this role, you will be maintaining clients' software that has already been developed, through bug fixing and minor adjustments. As well, as your skills develop, you will be trained to handle solo projects and client focused development.

This role requires someone who is self-motivated, a quick learner, and is able to find answers when presented with challenges. As well, you should have knowledge / interest in mobile development and coding in general.

This role will involve:

- Full Stack development
- C# development
- Mobile development
- MVC development
- Bug fixing and problem solving

Salary will increase after the first year, subject to performance review

You will have a degree in Computing, Computer science, Games programming, or something similar, and be able to answer the questions posed in the person specification.

<u>Person Specification</u>

<u>Essential requirements</u>
You MUST be able to answer YES to the following questions and show examples in your covering letter

1. When have you solved a programming problem without assistance?
2. Have you taught yourself any programming languages?
3. Are you proficient with C# or Javascript?
4. Are you able to work to deadlines?

<u>Desirable skills</u>
These are not essential but may enhance your application if you can give evidence of your experience in your covering letter

1. Do you have experience with mobile development?
2. Have you got basic knowledge of MVC?
3. Do you have experience with React?
4. Do you have experience with Xamarin?
5. Do you have experience with ASP.Net?
6. Have you got experience with SQL?
7. Have you got experience creating APIs?

To apply:
Email your CV and Covering letter, giving a detailed account of your experience, skills and knowledge in relation to the requirements posed in the questions above to
